

Assignment

Build a similar looking chart with table (like below) in more creative and better way with Logo instead of text (in the chart) and highlighted area on chart as per periods mentioned in ddperiod.json file, also create a table for the same, for chart data use data as per "combined" key in returns.json. Build the chart using lightweight Charts library. Host it on a server for us to check and share the github link for the source code.

ddperiod.json download link : https://drive.google.com/file/d/1Tub_TnYJkhVL3-wDuQ3XO3ymW7Ht4ldQ/view?usp=sharing

return.json download link : <https://drive.google.com/file/d/1LmHgZlpA5sQseaDRZH1BBY4pYENllysh/view?usp=sharing>

Chart should look like this :
